Local Boy Under Shell Fire In War

BERT LAMOINE WRITES FROM FRANCE OF HIS EXPERIENCES

With a wash-tub for a writing desk, a box of anti-aircraft shells for a seat, Bert Lamoine, Richmond boy with the French transport service on the western front has sent another letter to his brothers Carl and Fred Lamoine, druggists of this city. Under date of June 24, 1917, "In France" he says:

THROUGH "SUN" ZONE.
"Received your letter of May 24. So you see it takes about a month to get a letter. I did not see the clippings sent to me before our departure from New York. We left on the 'Chicago.' Our sailing was a secret. The boats never leave on schedule. Sometimes they are three days late. Mrs. Crocker did not give us the life preservers. They were big and clumsy and cost about \$6 each. A bunch of fellows slept on deck all the way over. Not for me, it was too cold and if we were hit by a torpedo, they would have no better chance than I. Some of them were scared to death all the way over."

NEWS SOUGHT.
"Your letter was full of news so I read it to the fellows. Keep up"

"SLACKERS" TO BE ROUNDED UP VERY SHORTLY

(Special to the Record-Herald.)

WASHINGTON, July 31.—Thousands of slackers are to be rounded up in a country-wide search.

Attorney General Gregory today made public orders issued to every United States attorney to carefully seek out men between the ages of 21 and 31, inclusive who are unregistered. He also ordered "vigorous criminal prosecution."

"Reports received on July 16 indicate there are thousands of men between the ages of 21 and 31 who are unregistered," Attorney General Gregory said. "The importance of this evasion of the law cannot be too great and there must be a thorough and country-wide search for these men."

"Although the draft of July 20 is over, these men will not evade the selective conscription."

Instruction has already been given to the local exemption boards for the registering of these men and for the assignment of a place in the draft.

PICNIC REPORT TO BE GIVEN THURSDAY

A meeting of the general committee in charge of the Norman Embree picnic at East Shore park Sunday will be held Thursday evening, at which time a full report of the ticket sale for the picnic will be received. The picnic was held under the auspices of the local lodge of Praetorians and was quite a success.

ALLIES DRIVE WINS 20 MILE TRENCH FROM LYS TO COAST

LONDON, July 31.—Attacking early today on a twenty-mile front in Belgium, from the River Lys to within about ten miles of the coast, General Sir Douglas Haig's troops, in conjunction with French forces, swept rapidly over the first line German position and at many points reached the Teutonic second line. They took numerous prisoners as the drive continued.

BRITISH FRONT IN FRANCE.
July 31.—The entente allied force which launched their offensive this morning have advanced well beyond the shell shattered front line German trenches. In many places they have reached the second line defenses on a twenty mile front of attack.

The British again have captured La Bassee Ville, which they recently relinquished to the Germans.

It is to be placed on the west side of the channel.

PICKING THE WARRIORS.

The work which has been undertaken by the local exemption boards in the matter of the selective draft is a great and difficult one and for the most part it is being performed by the men chosen for the work in all parts of the country without a cent of remuneration. They regard it as a patriotic duty to the government and are doing it cheerfully and conscientiously.

And there is real work involved in the task, which promises to cover a period that will only be ended with the signing of the treaty of peace between the United States and the other warring nation. The high paid dignitaries in Washington have no idea of the details which must be handled by the citizens, many of whom are not accustomed to clerical labor of any kind.

In many of the smaller communities it will be necessary to go over the entire draft list in order to ascertain the first eligibles, for many are going to claim exemption and some of them without justice. So that extreme care will have to be exercised by the members of the board so that the government will not in any manner be imposed upon.

No one need carry away the idea that the physical examination is going to be comparatively easy. We have heard it said that there will be no such rigid requirements for the conscripts as there was for the Reserve Officers' Training corps. This is untrue, for Uncle Sam is not going to send anybody to the trenches in whose lungs there is the slightest indication of disease or weakness. The experience of Great Britain, France, Canada and other countries with their hundreds of thousands of tubercular soldiers has been too costly not to warn this nation to form a policy of take 'em all if they can march and carry a gun.

The number of drafted men, who will remain in ignorance of their call, in spite of everything officials, public and press can do, will be large, and constitute another and even more serious problem. It is all right to declare that such as fail to present themselves for examination will be designated as "subject to military duty" and written off against the county quota. What is going to round up the subject for military duty cheap? Uncle Sam going to provide a provo guard? Not so that you can notice it. The men are going to be notified at their usual address and it is up to them to get the notification. There are thousands of reports of various sorts to make out and these must be handled so that they conform to each particular case. It's a big job and a thankless one.

CUT OUT THE BALDERBASH

That there is entirely too much buncombe and balderdash in this war literature stuff in order to wake a feeling of hate among the people is a pretty well drawn conclusion which has been arrived at by those who have been following international events during the past few months. If this war is ever won by the entente allies it will not be by this sort of stuff, nor will threats of what is going to be done with the people of the central powers when they are subdued going to help matters to an amicable conclusion. Here is a pertinent editorial on this subject from the Fresno Republican:

"Two important points may

be noted, at the close of the third year of the war, in the allied comment, both pointing to a chance of peace without quite ruining both sides. The one is the official admission, by a French statesman that Germany is not to be commercially "crushed." It is insisted that the German empire must be crushed, as a political force, and with this the United States is in full agreement. But the talk of so ruining Germany that she would never again have the money to buy arms was nonsense. It was worse than brutal—it was absurd. The means of preventing a continuance of military autocracy while not well determined cannot include the business destruction of a people of fifty millions, and it is well that the folly of proposing an allied trade union against the German people has been acknowledged. It will help to cut German support out from under the kaiser's feet.

"On the other hand, it is clearly shown that Germany's power to wage an offensive war is gone. The kaiser could not get to Paris, nor to Calais, nor even to Verdun. And he is now wasting more lives in keeping his line in Campagne and Flanders than he lost in his big offensives. Germany's "punch" is gone. There is, of course, left an enormous defensive power. But it was a losing, though a long, fight even before the United States got into it. The brief spasm of forward movement on the eastern frontier, against a spy-bitten and self-suspicious revolution, can at best carry the German armies into the marshes of western Russia.

"A moderation of the 'punishment' demands on both sides and a realization by Germany that the kaiser cannot give them a victory, afford the world at the beginning of four years of war, a much healthier hope of peace, than any time in the last two years."

CUT THE WIRES.

Getting things through pull and personal influence is an American habit that is so old it is ingrained, is the opinion of the Stockton Mail. Exemption boards are going to find more wires working than ever they thought could exist in this old world. All kinds of pressure will be brought to bear; some friendships will be broken and many cordial relations will be strained. Many tickling situations will be forced on these boards. Infinite tact and iron firmness will be needed for them to hew to the straight line of duty. But, with their duty so clearly outlined, and considering the personnel of the boards, we predict that delinquencies in this respect will be our one national war-time scarcity.

The duty of the citizen is just as clear. To attempt to embarrass exemption boards through personal influence and pull—to seek to force exemption on any but legitimate grounds—is to place oneself at the head of the list of moral slackers. All the more reprehensible are such tactics when, if they should succeed, it means that the exempting of one man on insufficient grounds, carries with it the possible condemning to death of another who otherwise would not be called.

Every registered man had an equal and fair chance in the drawing at Washington. The rules of the game are absolutely impartial, all the way from the

little gelatine capsule to the trenches. Exemptions must be legitimate, and their rules adhered to without fear or favor. John Jones and Reggie Van Rassel, stripped for examination, are just two American citizens, measured by the same tape—and nothing more.

In this great war for democracy, there must be no peanut politics, no wire pulling, no illegitimate profits. On the contrary there must be personal and national sacrifices. Let us all do without quibble what is so clear—our duty to our flag, ourselves, our countrymen.

ZEROLENE

The Standard Oil for Motor Cars

Factory experts, and leading coast distributors for all makes of cars, testify that Zerolene, correctly refined from California asphalt-base crude, gives perfect lubrication with least carbon deposit.

Less wear and more power because Zerolene keeps its lubricating body at cylinder heat. Less carbon because, being made from asphalt-base crude, it burns clean and goes out on exhaust.

Zerolene is the oil for your car—whatever the make—the oil for all types of automobile engines. For correct grade get our lubrication chart covering your car.

ANITA STEWART AT THE RICHMOND T. & D.

John Robertson, who plays the role of Philip Lewis, district attorney and later governor in "The Combat," the Vitaphone Blue Ribbon feature starring the popular favorite, Anita Stewart, which is the attraction at the Richmond theatre today, gives his characterization of that indomitable will power and determination which is found in men of the stamp of Philip Lewis, besides giving a remarkably true and sincere portrayal of the role, Mr. Robertson plays opposite Miss Stewart very well indeed.

On the same program will be seen a Peerless Comedy and a Progressive Pictograph.

CATHOLIC PARTY ON FRIDAY EVE

A card party, at which many valuable prizes will be given, will be held by the ladies of Our Lady of Mercy Catholic church, in the church hall Friday night. The committee on arrangements for the affair comprises Mrs. White and Mrs. Neu.

FORTY-SEVENTH ST. PROTESTS FILED

The protests filed with the board last evening stated the work not to have been performed according to contract and that the present street grade to be five feet lower than the grade established by the city engineer.

OFFICIAL'S SISTER IS NAMED EMPLOYEE

"CALL OF WOODS" AT THE TENT THEATRE

If making human beings captives, has anything to do with the taking of trenches, then Murphy's comedians made a clean sweep of the trenches last night, in their presentation of the "Call of the Woods." The audience, one and all, men, women and children, were made captives. They were forced to cry at the will of the actors; and again forced to laugh, almost within the same breath. It is absolutely compulsory to force a person to laugh and cry in the same breath; but that is what happened last night at Murphy's tent theater. "The Call of the Woods" is a play full of pathos, comedy and action. Action is the thing that wins great battle. Action is what makes "The Call of the Woods" a great play. People who really want sensation, comedy and pathos, mixed with a breath of good, high class vaudeville, must not miss Murphy's production of "The Call of the Woods."

ELECTRIC LIGHT COSTS LESS THAN EVER BEFORE.

The above chart was prepared for one of the larger cities, but it fairly represents similar conditions throughout the United States.

The past 20 years have witnessed a steady decrease in the cost of Electric Service. Rates have been reduced as regularly as warranted—the volume of light produced by a unit of current has been more than trebled by the invention of and the improvements made in the Mazda lamp. One dollar today buys ten times as much Electric Light as it purchased a few years ago.

OTHER NECESSITIES COST MORE.

In the same span of years, from 1896 to 1916, the cost of living, on the other hand, has gone steadily upward as illustrated in the above chart. Food, clothing, fuel, rent, taxes, etc., have advanced from 50 to 100 per cent or more.

It is hardly necessary to compare this tremendous increase in the price of these necessities of life with the very noticeable reduction in the cost of Electricity through lower rates and improved efficiency.

LOCAL BOY UNDER SHELL FIRE IN WAR

(Continued From Page One)
the good work and send lots of writing paper as paper here is very scarce.

LOSUS HAT.
"I lost my hat in New York but didn't mind it as we are always in uniform. We get our dress uniforms in about two weeks. They are some uniforms.

"Are my letters censored? Yours are not."
"Always send baseball score and date of game. Yesterday I paid thirty-five cents for two packages of Bull Durham, so you can see how high tobacco is here.

"It is hard to get good pictures here. Generally too cloudy.

UNDER SHELL FIRE.
"Night before last was my first experience under fire and strange to say I didn't feel any different from other times. We were about one and one-half miles from the German trenches and very much in sight of the German guns and aeroplanes. We stopped just outside a small village to watch the battery fire from the hills. From there we could see them start shelling the village. It is more than likely the Germans saw our ammunition train coming and increased their shelling of the town. The enemy shells the ammunition trucks whenever possible. Orders were immediately given us to leave. As we did the shells began bursting all about us. The shells came to all parts of the town and we could hear them as they exploded and the building collapsed. Three big ones fell close to us. As we left the village, shells began to whistle over our heads at a height of about 15 or 20 feet. They kept exploding at distances of 50 feet ahead of us all along the road. It was just one shell crater after another which we would pass.

SCREENED ROAD.
"The road we were on is a screened road. Luckily—no one was hurt. The place where we delivered the shells was surrounded with guns. They were shooting so fast that I could hardly hear anything around me. When a big gun goes off it shakes you all to pieces. "Now and then I could hear a "fuse arrive", such as howitzer shells are called. They whistle shrilly as they pass. Many landed near us.

WUNS ROAR.
"Coming to the ramparts, one car went into an abandoned trench. The driver struck a light to get his bearings and immediately the Germans commenced to shell the section all around us. I happened to be coming by at that time. Later while crossing a bridge it blew up. No one was hurt. The poor fellow that was stuck in the trench got over just a few seconds before. He was scared to death. He was Herbert Kendal. Shortly after this six cars went into a ditch and broke the convoy all up or we would have had a citation to receive the Croix de Guerre for our excellent work under fire. It would have been nice had we received the citation—but we didn't.

"Saw 24 German and French sausage balloons in the air at one time. Some sight.

FORMER HEAD OF SCHOOL BOARD TO LIVE IN BERKELEY

E. L. Jones, former president of the board of education of this city, and family, have moved to Berkeley, to be closer to the state university, where their son Holloway becomes a student this fall. Miss Dorothy Jones will enter the high school in that city this year. Both Mr. and Mrs. Jones were quite prominent in church and fraternal work in this city. Holloway Jones was leader of the orchestra at the Wesley Methodist church. Mr. Jones still owns valuable property here and as soon as his son and daughter have finished school will return here to live.

CARDS OF THANKS.

I take this means of thanking our many friends who attended the benefit picnic given by Richmond lodge of Praetorians at East Shore park Sunday for my husband, Norman Embree. I wish also to express my appreciation of the various other fraternal organizations of this city whose committees worked so hard and faithfully for the picnic's success.

His Unsolicited Testimonial

Oakland, Cal., Mar. 25, 1917
For several years I was troubled with NEURALGIC ATTACKS. I visited the most prominent physicians in both OAKLAND and SAN FRANCISCO without obtaining permanent results. Finally, when an operation on my SPINE had been suggested, I quit and began drinking the FONG WAN CHINESE HERB TEA. After seven weeks I felt entirely well. This was in September, 1916, and up to the present time, March, 1917, there has been no recurrence of the attacks.
